

Ashfield *EventSafe* Rapid Covid-19 screening:

5 Steps to Planning Your Safe Event

1 Policy Creation

- Ashfield partners with you to devise your Covid-19 screening policy & protocols, which can then be used for future events.

2 Event Analysis

- Your event requirements are reviewed, including number of attendees, length of meeting and local regulations.
- A screening solution is provided, including the number of Covid-19 Test Coordinators needed and recommendations about screening setup and frequency for the event.
- Ashfield works with the venue to secure space for your screening environment.

3 Communications

- Covid-19 screening protocols and requirements are shared with attendees for opt-in at time of pre-event registration.
- Our team is available for questions and support.

4 Event Arrival & Screening

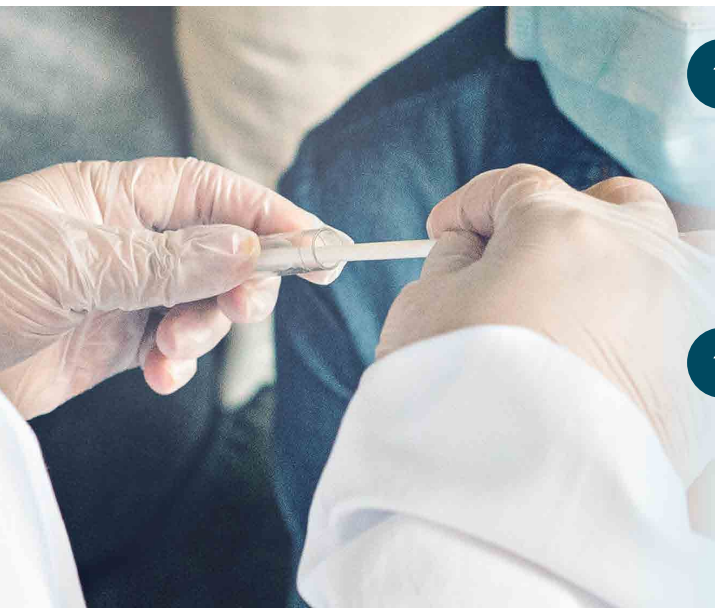

- Ashfield's Covid-19 Test Coordinators set up the screening site at the venue.
- Attendees arrive on a staggered basis and are guided to the screening room to provide consent for testing.
- Once the test is complete they move to the socially distanced waiting area.
- Test results are communicated to each attendee and the meeting host 20-30 minutes after the test.
- If an attendee tests positive, guidance is given on next steps.

5 The Event "Bubble"

- Once cleared, attendees enter the safe event "bubble", following local regulations, including social distancing and mask-wearing, as required.

How does the test work?

The test identifies people who currently have the virus, including those who are asymptomatic. A nasal swab is taken and the specimen and buffer are applied to the test.

The Covid-19 Test Coordinator provides results 20-30 minutes after the test.

Who is providing the service?

Ashfield's clinically trained Covid-19 Testing Coordinators and Events Team provide a seamless service for your safe event environment.
